# Green Coffee Bean Cleaner

*American Made, Hand Built Quality*

## SPECIFICATIONS

The USRC Green Coffee Bean Cleaner is designed to allow you to effectively separate specific density foreign matter from your green bean stores prior to roasting. It separates small strings, lint, hulls, and other matter lighter than the green beans. It is manufactured by hand from heavy gauge steel to assure you of quality and durability. This self contained system allows you to collect any trash in the green beans while also collecting the dust to contribute to a cleaner work environment.
