

Coffee Bean Blender

Patent Pending

American Made, Hand Built Quality

A great addition to your roastery or plant. No more blending of beans with time consuming small batches, mismeasurements, and inconsistent blends.

Blend up to 150# of product at a time with a removable cover to prevent spillage

Stainless steel hopper with engineered flights for complete bean blending. Heavy duty reinforced steel frame for years of reliability.

UL listed control panel with commercial grade electrical components. Heavy duty electrical motor with variable speed control and safety shut off

\$19,950.00
